PROFESSIONAL SUMMARY

Information Systems Engineer (UTN, GPA 8.55/10) with 3+ years of experience designing and building production web, mobile, and backend architectures. Strong proficiency in **TypeScript (React, Next.js, React Native, Node.js, Hono)** and **Python**, serverless infrastructure, and relational databases (**PostgreSQL, Supabase**). Proven adaptability to new languages and technologies (**Rust** in Web3), with **3 applications published on the Google Play Store**, integrating **product AI (LLMs, agents)** and **AI-Driven Development** workflows in agile (Scrum) environments.

WORK EXPERIENCE

Full Stack Developer & Freelance Consultant | Commercial Projects (Mandadito, DÚO Propiedades)
June 2026 – Present | Remote

- **Mandadito (Multi-Role Marketplace & Delivery):** Built and hardened the v1.0 web platform (**Next.js 16, React 19, TypeScript, Supabase**) featuring 4 operational portals (buyer, merchant, courier, and 2FA admin), a 3-step checkout, and a fractional inventory engine (unit, kg, and liter).
- **Transactional Security & Payments:** Implemented **Mercado Pago** OAuth onboarding and split payments, cryptographic anti-replay webhook validation, **PostgreSQL** triggers, strict RLS policies, and distributed rate limiting with **Upstash Redis**.
- **DÚO Propiedades (duopropiedades.com.ar):** Designed and deployed an end-to-end SSR real estate portal, interactive catalog with dynamic filtering, digital appraisal pipeline, and CRUD dashboard on **Vercel and Supabase**, reducing upfront infrastructure costs projected by the business.

Full Stack Developer | Secretariat of Science and Technology (UTN-FRRe)
April 2023 – April 2026 | Resistencia, Chaco, Argentina / Hybrid

- Designed and developed from scratch the centralized web platform for university research management, unifying the tracking of scientific projects (PIDs), researchers, institutional agreements, and financial disbursements.
- Built responsive web interfaces with **React.js and Chakra UI**, optimizing asynchronous state synchronization and caching with **TanStack Query** and complex real-time form validations via **React Hook Form and Yup**.
- Developed a multi-layered REST API with **Node.js, Express, and Prisma ORM**, modeling and normalizing the **PostgreSQL** relational database with secure **JWT/Bcrypt** authentication and continuous cloud deployment (Render).

FEATURED PROJECTS

Datebox — Social Outings Mobile Platform & AI Recommender | *datebox.com.ar* · *Google Play Store* *(Upcoming on App Store)*

- **Published on Google Play Store:** Led the technical architecture in a 4-engineer team, building the cross-platform mobile app in **React Native + Expo** and an ultra-low-latency serverless backend on **Hono + Cloudflare Workers**.
- **AI Agents & CI/CD Automation:** Co-developed the group recommendation engine integrating AI agents in **Python and LangGraph**, automating continuous delivery with **GitHub Actions / Expo EAS** and type-safe API contracts via **Orval**.

Dosel — Web3 Platform & Satellite Carbon Credit Oracle | *Live Demo* · *GitHub*

- **1st Place Stellar Track – NEA TECH Ideathon 2026** ($500 USD award by Stellar Dev Foundation & BAF). Developed **Rust (Soroban)** smart contracts with escrow and atomic burning of GreenTon tokens, plus a **Python + Sentinel-2** oracle computing live satellite NDVI over native forests.

Elepad — AI-Powered Cognitive Stimulation Mobile Platform | *Google Play Store* · *GitHub*

- **Published on Google Play Store with 7 consecutive production releases** and awarded **3rd Place at the 2024 Latin American Innovation Rally** (React Native, Expo, Turborepo, Supabase). Integrated **Google Gemini API** for dynamic generation of family narrative scrapbooks.

TECHNICAL SKILLS

- **Languages & Frontend/Mobile:** TypeScript, JavaScript (ES6+), Python, SQL, Rust (Soroban). React.js, Next.js (App Router / SSR), React Native, Expo (EAS), Tailwind CSS, Chakra UI, TanStack Query, Zustand, React Hook Form, Zod.
- **Backend, DB & Payments:** Node.js, Express.js, Hono, Flask, REST APIs, Orval (OpenAPI), PostgreSQL, Supabase (Auth, RLS, RPC, Triggers), Prisma ORM, Redis (Upstash), Mercado Pago SDK / OAuth & Webhooks.
- **AI, Cloud & DevOps:** AI Integration (Gemini API, LangGraph, ONNX Runtime Web), AI-Driven Development (Claude Code, Cursor, Agents/MCP), Cloudflare Workers, Vercel, Docker, Kubernetes (K3d), CI/CD (GitHub Actions), Scrum (SFC).

EDUCATION, CERTIFICATIONS & LANGUAGES

- **B.S. in Information Systems Engineering** | Universidad Tecnológica Nacional (UTN-FRRe) | 2021 – 2026 — **GPA: 8.55 / 10 · Academic Honor Flag Bearer Escort (2025)**.
- **Associate Degree in Information Systems Analysis (ADUSI)** | Universidad Tecnológica Nacional (UTN-FRRe) | 2021 – 2024.
- **Certifications & Honors:** Scrum Fundamentals Certified (SFC) (SCRUMstudy) · 1st Place NEA TECH Ideathon 2026 (Stellar) · 3rd Place Latin American Innovation Rally 2026 (PolliNode) & 2024 (Elepad).
- **Languages: Spanish:** Native · **English:** Technical Intermediate (fluent reading and comprehension of technical documentation).
